---

*We are...*

» A plant in the town of Elkmont with a strategy to be "in the community and for the community." God planted the church as a mobile campus in the local high school, and we just celebrated our one-year anniversary in our exciting new permanent location.

» LL North utilizes an "intentionally relevant" style of church designed to reach a growing number of those that are uninterested or disengaged from the church.

*Prayer Requests...*

» Continued favor in our community, and the development and unfolding of our national and international mission strategy  
» Vision and direction toward additional space needed to accommodate current safety restrictions and continued growth  
» Efficacy in our leadership development strategy to steward toward continued growth
